## Company Overview

Altice is the second largest mobile network operating in the Dominican Republic. The company was formed in 2017 following the merger of two Dominican mobile network operators Tricom and Orange Dominicana, following a parallel acquisition of the two companies by Netherlands-based Altice Group from Hispaniola Telecom and Orange Group respectively.

Following the merger, the Altice network now comprises 900, 1800, and 1900 MHz GSM services, a 3G UMTS service over the B8 (900 MHz) band (formerly Orange Dominicana), with DC-HSPA+, and a B5 (850 MHz) carrier used in metro areas. The company provides 4G LTE services over B2 (1900 MHz) as its primary band, with B4 (1700 MHz) and B5 (850 MHz) used in areas requiring additional capacity.
